

# Families and Household

Paper 2 – Demographic  
Changes – Immigration  
and Ageing Population

# Key Issues

- What is the purpose of the family? What benefits does it provide for society and its members? (Functionalism/Marxism/Feminism/Postmodernism)
- Is the family equal? Are the power relationships between partners equal? Is there a march of progress towards equality?
- Is childhood socially constructed? Does it vary from society to society? Is childhood disappearing?
- What changes have there been to the family structure over the past 50 years? Is there such a thing as a typical family?
- How can governments influence family structures? Why would government prefer the nuclear family over others? Can the government influence gender equality?
- How has globalisation influenced the family? What demographic changes have led to changes in our society? What are the benefits and costs of greater migration and ageing populations?

# The Big Question: Evaluate changes to the demography of the UK (20)

E

A\*

# Define the following terms:

Define immigration, emigration and net migration

Explain the reasons for trends in migration

Immigration is...

Emigration is...

Net Migration is...

What are the trends in migration into and out of the UK?

Using research give reasons for following

Identify a range  
of impacts of an  
ageing  
population

Impact on Public services

Impact of Family/wider society

Give reasons for increased migration

Outline  
reasons  
Migration has  
increased

Push

Pull

# Explain how one change causes another

Analyse the impact of these ideas

Improvements in Healthcare

Increase in life expectancy

Improvements in Nutrition

Increase in life expectancy

Decline in Birth Rate

Ageing Population

Ageing Population

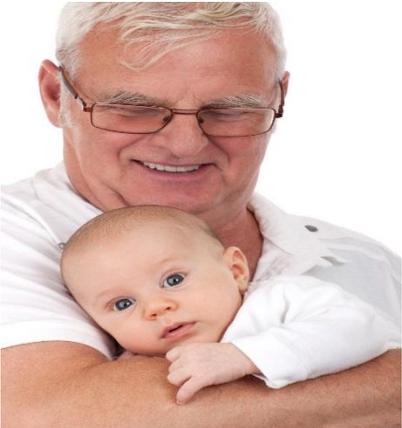

Increase in dependency ratio

How might immigration help the British economy?

Why might people chose to emigrate?

How might an ageing population have impacts on the family?

Evaluate the impacts of these views
